

Aldo Mell
UArizona Class of 2022

1. What is your current program of study?

I am currently an Applied Humanities major with a Public Health Emphasis and I am minoring in Business Administration.

2. How long have you been a Prep student?

I joined the Peace Corps Prep program last spring after hearing about it at the Career Fair and learning that one of my friends was in it.

3. What sector of Peace Corps are you most interested in and why?

I'm most interested in the Youth in Development and Community Economic Development sectors. I currently love volunteering with the local Tucson youth with many different non-profit organizations, and want to continue this in my career. I want to start my own non-profit focusing on foster care and adoption, and volunteering in the Youth in Development sector in the Peace Corps would be a great way to get some new experience working with youth overseas. The Community Economic Development sector also interests me because it ties in with my minor, and I would love to work with government organizations, businesses, and non-profits. This experience would provide me with a good foundation for starting my own non-profit in the future.

4. What made you decide to apply for the Ambassador Program?

I applied to the Peace Corps Ambassador Program because I believe in the power of volunteering—and work with many people who do also—and this new role would allow me to spread the good word.

5. What are you most looking forward to as the new campus ambassador?

As a Peace Corps Campus Ambassador, I am most excited about working with and meeting other ambassadors at other schools. Overall, I'm just excited for a new experience.
